

Corporate Plan 2026-2028

Papua New Guinea's capital market will be secure, inclusive, and growing -built on fairness, integrity, and accessibility-supporting investor trust and national prosperity by 2050.

Foreword by the Acting Chief Executive Officer

It is with great pride and strategic foresight that I present the Corporate Plan 2026–2028 of the Securities Commission of Papua New Guinea (SCPNG). This plan represents a transformative chapter in our journey to build a capital market that is not only transparent and secure, but also inclusive, innovative, and responsive to the evolving needs of our nation.

As Papua New Guinea advances its development agenda under Vision 2050 and the Medium-Term Development Plan IV, SCPNG is committed to playing a catalytic role in mobilising investment, fostering financial literacy, and strengthening market integrity and regulatory framework.

This Corporate Plan translates our long-term strategic goals into actionable priorities across five Key Result Areas:

JAMES JOSHUA

Acting Chief Executive Officer

Leadership and Governance, Market Regulation and Compliance, Legal and Regulatory Reform, Investor Education and Awareness, and Institutional Strengthening.

Over the next three years, we will pursue bold reforms, embrace digital transformation, and deepen stakeholder engagement. We will invest in our people, systems, and partnerships to ensure that SCPNG remains a forward-looking institution capable of driving sustainable capital market development.

I extend my sincere appreciation to our dedicated staff, the Board, and our stakeholders for their contributions to this plan. Their commitment reflects a shared vision for a financial ecosystem that empowers citizens, supports businesses, and contributes meaningfully to national progress.

Together, we will realise a capital market that is resilient, inclusive, and aligned with the aspirations of Papua New Guinea.

JAMES JOSHUA

1. Executive Summary

The SCPNG Corporate Plan 2026–2028 translates the Commission’s long-term strategic vision into actionable priorities for the next three years. It provides a structured framework of programs, initiatives, and measurable performance indicators to deliver SCPNG’s mandate of regulating Papua New Guinea’s capital markets.

SCPNG plays a pivotal role in economic development by safeguarding market integrity, protecting investors, and promoting financial inclusion. This plan outlines strategic priorities that will update the legislative framework of the PNG capital markets to expand market opportunities, ensure compliance with the legislation and rules, and enhance institutional capacity by strengthening leadership and governance to meet the evolving needs of the capital market.

The plan is structured around four Strategic Goals, each supported by Key Result Areas (KRAs):

- Strategic Goal 1: Policy Development-Update the PNG capital market legislative framework to and encourage additional products in the market.
- Strategic Goal 2: Enforcement – Licencing and supervision of the legislation and rules
- Strategic Goal 3: Education - Empower Investors, stakeholders and service providers through education and Awareness
- Strategic Goal 4: Enhance Institutional Performance-Improve capability, capacity and services by the SCPNG.

Together, these goals encompass 20 KRAs, each with defined objectives, initiatives, and performance targets. By 2028, SCPNG aims to achieve increased investor participation through the introduction of innovative financial instruments facilitated by an updated legislative framework, improved compliance through active enforcement and monitoring, educated investors and regulated service providers and enhanced institutional performance.

This plan is fully aligned with Vision 2050, the Medium-Term Development Plan IV (MTDP IV), and the Capital Market Development Strategy. Implementation of this Corporate Plan will ensure that SCPNG’s efforts contribute meaningfully to national development priorities.

2. Legal Mandate of SCPNG

The Securities Commission of Papua New Guinea (SCPNG) is established under the Securities Commission Act 2015 and is responsible for administering and enforcing the Capital Market Act 2015 and other relevant legislation. Its mandate includes:

- Advising the Minister on capital market policy and legislative reforms.
- Regulating and monitoring capital market activities and participants.

- Promoting investor education and market integrity.

This legal foundation empowers SCPNG to act as the national regulator for securities and capital markets, ensuring compliance, transparency, and sustainable market development.

3. Organisational Structure of SCPNG

The Securities Commission of Papua New Guinea (SCPNG) operates under a structured governance and management framework that supports its mandate to regulate, protect, and develop the capital market. The organizational structure is designed to ensure transparency, accountability, and operational efficiency across all functional areas.

Governance and Oversight

- Minister for International Trade and Investment: Provides policy direction and oversight.
- Board of Directors: Provides strategic direction, ensures compliance with statutory obligations and oversees risk management.

Office of the Chief Executive Officer (CEO)

- Chief Executive Officer: Provides overall leadership and management.
- Executive Officer to the CEO: Coordinates executive functions and institutional development.
- General Counsel: Provides legal advice and supports regulatory compliance.
- Internal Audit Unit: Ensures transparency, risk management, and accountability.
- Performance Management and Governance Unit: Oversees institutional performance and policy implementation.

Core Responsible Divisions

1) Legal and Compliance Responsible Division

- Oversees enforcement, licensing, and regulatory compliance.
- Manages legal reviews and legislative reform initiatives.

2) Licensing and Supervision Responsible Division

- Reviews and licences regulated service providers
- Monitors market activities and participant behaviour.
- Implements risk-based supervision and surveillance systems.
- Conducts enforcement investigations

3) Research and Publication Responsible Division

- Conducts strategic research and policy analysis.
- Supports innovation and capital market development.
- Develops financial literacy campaigns and outreach programs.
- Engages stakeholders through media and community platforms.

4) Corporate Services Responsible Division

- Manages finance, HR, ICT, and administrative support.
- Ensures operational continuity and resource optimization.

4. Strategic Context

SCPNG operates in a dynamic environment shaped by a need to update the legislative framework and develop internal capabilities. The national development frameworks and strong government support provide a clear sense of direction, and enthusiastic staff provide a solid base for development.

There is demand in the market for thematic bonds, SME financing, regional integration, and digital innovation. Opening the market to realise these demands requires an update of the legislative framework. The SCPNG has an opportunity to develop its institutional capability and lift the performance of its outdated ICT infrastructure.

The PNG Capital markets face threats from global market volatility, cybersecurity risks, and resistance to regulatory reforms, which must be proactively managed.

5. Cascading Strategic Goals into Key Result Areas (KRAs)

This section demonstrates how SCPNG's Strategic Goals for 2026–2031 are cascaded into Key Result Areas (KRAs) for the Corporate Plan 2026–2028. Each KRA is supported by objectives, initiatives, KPIs, baselines, and targets to ensure accountability and measurable progress. These KRAs will form the foundation for the Annual Work Plan, which operationalizes activities at the Responsible Divisional level and tracks quarterly performance.

5.1. Strategic Goal 1: Policy Development

The capital market regulatory environment suits the PNG economy, provides clear rules about appropriate behavior, and encourages additional products into the market.

5.1.1. Legislative Framework

The capital market legislation requires updating to ensure that it better suits the PNG economy and market environment. The goal is to introduce modern capital markets legislation which takes account of PNG economic conditions and allows a broader range of products to suit SME and include thematic bonds. The first step in this process is to define the policy framework. Without the policy framework, it is not possible to draft the legislation. For the first period, the SCPNG will be developing the policy framework that will provide the basis for drafting the legislation.

5.1.2. Regulations, codes, and guidelines required to support the legislation.

The CMA and CDA provide for regulations and codes which set out detailed rules for how capital markets will operate. These regulations, codes and guidelines provide certainty and clarity for market participants. The SCPNG will prioritise this work to focus on outstanding matters which are required to facilitate the smooth operation of the PNG Capital Markets.

5.1.3. Contribute to improving investment.

The SCPNG will engage with the Financial Services Council (FSC) and contribute to the completion of the Financial Services Development Strategy 2018-2030 (the FSDS).

5.2. Strategic Goal 2: Enforcement and Compliance

Capital market participants are appropriately vetted, comply with the law and rules of the market, and appropriate sanctions are applied when participants breach the law so that investors are protected.

5.2.1. Licencing

The application process will be reviewed with a view to allowing on-line applications to streamline the process and reduce the time taken. Internal manuals and documentation setting out the SCPNG's processes and how it applies appropriate criteria will be reviewed and updated.

The SCPNG will develop appropriate conditions to be included on licences. These conditions will resolve uncertainty about expected standards of performance by operators to ensure investors are protected.

5.2.2. Supervision

The SCPNG has developed its programme to monitor and supervise market activity to identify situations where behaviour or circumstances might impair the orderly functioning of the market which, if left unchecked, could undermine the confidence of investors in the market.

The monitoring programme will comprise a mix of scheduled and unscheduled reviews of Licence holders and unit trust licence holders.

5.2.3. Investigations

The SCPNG has been developing its investigation capability and capacity. It will become more active in conducting formal enforcement investigations where it identifies behaviour likely to be in breach of the legislation.

The SCPNG will develop an Investigation manual which sets out a range of matters such as investigation planning, processes, and handling documentary evidence.

KRA 2.1: Licensing of Regulated Service Providers

5.3. Strategic Goal 3: Education & Awareness

Providers of regulated services and investors in financial markets understand the rules, processes and opportunities, and what to expect when they engage with the SCPNG.

5.3.1. Stakeholder Engagement

The SCPNG will develop a stakeholder engagement strategy to develop strong relationships with all stakeholders, provide information to market participants and increase confidence in the operation of the PNG capital markets.

5.3.2. SME Engagement

SME specific engagement will be a focus for the SCPNG. The SCPNG will work with SMEs to better understand their needs and to develop policy which will allow a range of products into the market which improve SME access

to finance. The SCPNG will also engage with SMEs to educate them about possible options and products available to them,

5.3.3. SCPNG Website

The SCPNG will use its website to improve transparency. It will update the information currently available and develop additional portals available to stakeholders to improve communication between the SCPNG and its stakeholders.

5.4. Strategic Goal 4: Enhance Institutional Performance

Demonstrate strong governance and leadership, improve its capability and capacity, and be recognised as an independent and expert regulatory body.

5.4.1. 4.1. Strengthen governance and leadership

The SCPNG Act was amended to clarify the governance and leadership roles within the SCPNG. The SCPNG will contribute to the process of appointing members to the Board and a CEO. Governance arrangements will be developed to ensure that the SCPNG has strong leadership and governance

5.4.2. ICT Performance

Information technology is an important enabler for any organisation. The SCPNG will continue to update its ICT infrastructure to ensure that it contributes to the strong performance of the SCPNG. The enterprise system will continue to be developed, staff will be provided with training and cybersecurity systems will be updated.

5.4.3. Internal Policies

The SCPNG will continue to develop its operational and administrative policies. The focus will be on outstanding matters which will contribute to the high performance of the SCPNG and reduce risk.

5.4.4. Financial Management

The SCPNG will ensure that its financial resources are well managed and that it remains sustainable. It will calculate the appropriate cost for its activities to establish appropriate fees.

5.4.5. Capability and Capacity

The SCPNG will undertake a workforce capability review and develop appropriate programmes with partner organisations to further develop the required capability.

6. Risk Management

Risk management is the process of identifying, assessing, and mitigating potential events or conditions that could negatively impact the achievement of organizational objectives. It ensures that SCPNG can anticipate challenges and respond proactively to minimize disruption and safeguard its reputation, resources, and strategic outcomes. Below is a summary of key risks identified for the implementation of this Corporate Plan.

Risk Type	Likelihood	Impact	Mitigation Strategy
Budget Risk	Medium	High	Engage Treasury and seek donor support
Capacity risk	High	Medium	Recruitment and training
Reputational Risk	Low	High	Stakeholder Engagement

7. Monitoring and Evaluation (M&E)

Monitoring and Evaluation (M&E) is a systematic process used to track progress, assess performance, and ensure accountability in the implementation of the Corporate Plan. It helps SCPNG measure results against planned objectives and KPIs, identify areas for improvement, and inform future planning.

The M&E framework includes:

- Quarterly Reports: Responsible Divisions will submit quarterly performance reports to monitor ongoing activities and outputs.
- Annual Reviews: Conducted to assess progress against KPIs and ensure alignment with strategic goals.
- Mid-Term Review (2027): A comprehensive assessment of achievements, challenges, and adjustments needed for the remaining implementation period.
- End-Term Evaluation (2028): A final evaluation to measure overall impact and inform the development of the next Corporate Plan.

8. Conclusion

The Corporate Plan 2026–2028 translates SCPNG’s strategic vision into measurable action. Through strengthened regulation, legal reform, investor education, SME empowerment, and institutional capacity building, SCPNG will deliver a capital market that is secure, transparent, and inclusive.
